ABOUT US

Rabie Property Developers, a trusted name with 46 years of property development experience, proudly presents Jardine, where suburban living has been elevated to the next level.

THE BENEFITS OF *buying from* Rabie Property Developers ❀

01 WHY RENT IF YOU CAN BUY?

With the current interest rate, it has become a lot more affordable to invest in property, as your rands stretch so much further. Why pay rental to a landlord if you can own your own home?

02 NO TRANSFER DUTY

One of the biggest savings on a new home is that you don't have to pay transfer duty. This tax is due for all homes exceeding R1-million and starts at 3% of the value above R1-million. If you buy from a developer, it means that you don't have this cost.

03 VAT INCLUDED

When you buy from a developer, the purchase price includes VAT, therefore the price you see is the price you pay. If you qualify for a 100% bond, you can finance the total price including the VAT.

04 EVERYTHING'S NEW!

Don't underestimate the feeling of knowing that you are the first owner of a home – everything is new, clean and has never been used before. The convenience of moving into a move-in ready home is a stress reliever. Relocating is a stressful change in one's life and knowing that you are moving into a brand-new home is very exciting.

Modern designed homes are also designed for the way we live – instead of a boxy, poky old house, a newly constructed home is a bright and welcoming experience from the moment you walk in the front door.

05 LOWER OPERATIONAL COSTS

There is no such thing as a fixer-upper when you buy a new home from Rabie. Repairs, maintenance and alterations should be zero or very minimal in the first few years. If constructed by a reputable developer to the latest standards, you could enjoy lower running costs and efficient energy measures.
